## SUMMARY

Passionate and detail-oriented web developer with a solid foundation in front-end and back-end technologies, including HTML, CSS, JavaScript, Java, and PHP. Proficient in creating responsive and user-friendly websites with a focus on clean code and performance. Eager to contribute innovative solutions and grow in a dynamic development environment.

## SKILLS

C   C++   Java   PHP   HTML   CSS   Bootstrap   SQL   DSA   JQUERY

## PROJECTS

### MP3 WEBSITE (AUDIOZILA)

📅 2024    📍 BIKANER

I created fully responsive music website

- Built a feature-rich MP3 website using HTML, CSS, Bootstrap, and JavaScript and java(JSP) with advanced functionality to enhance user engagement.
- Implemented a dynamic song play count feature to track and display user interactions with individual songs.
- Developed options for users to create playlists with custom images, add songs to playlists, and manage their favorite tracks.
- Integrated "like" functionalities for songs, albums, and artists to personalize user experiences and gather feedback on popular content.
- Designed a responsive and visually appealing interface, ensuring seamless interaction across devices.
- Focused on delivering a scalable and user-friendly platform that combines functionality with modern aesthetics.

### METRIMONIYAL WEBSITE(SOULMATE)

📅 2024    📍 BIKANER

I developed a responsive matrimonial website with user registration, profile creation, and matchmaking features for a seamless experience.

- Developed a fully functional matrimonial platform using HTML, CSS, Bootstrap, and JSP, with interactive features powered by jQuery.
- Designed a modern and responsive user interface to ensure compatibility across devices and provide an intuitive user experience.
- Implemented key functionalities such as user registration, profile creation, search filters, and matchmaking algorithms.
- Focused on optimizing the site for speed, usability, and scalability, ensuring robust performance for large datasets.
- Enabled users to edit their profiles, change passwords, and send messages.
- Integrated random profile display and a search feature to help users find profiles based on specific preferences.

### BLOG WEBSITE(B for Blogger)

📅 2024    📍 BIKANER

I developed a responsive blog website

- Created a dynamic and user-friendly blog website using HTML, CSS, Bootstrap, JSP, and SQL.
- Designed a responsive and modern user interface to ensure optimal viewing across all devices.
- Utilized jQuery for enhanced interactivity, including dynamic content loading and form validation.
- Implemented SQL database for efficient storage and retrieval of blog posts, user comments, and other content.
- Developed functionalities for users to register, log in, post blogs, and leave comments.
- Focused on improving site performance, usability, and scalability for handling a large volume of content and users.
- Enabled seamless content management and easy navigation, ensuring a smooth user experience throughout the site.

## PASSIONS

💎 I love creating websites that look great and work well, turning ideas into real, useful web solutions.

💎 I am passionate about web development and enjoy learning new tools to build modern and effective websites.
